Application No. 09/783,146
Filed: February 13, 2001
For: Method and Apparatus for Providing Secure
Streaming Data Transmission Facilities
Using Unreliable Protocols

**DECISION ON PETITION
UNDER 37 C.F.R. § 1.181**

This is a decision on the petition filed January 22, 2007 under 37 CFR § 1.181 to have the communication dated December 15, 2006, dismissing the appeal in this application be withdrawn.

A review of the record reveals that an appeal brief was filed on September 20, 2006. On December 15, 2006, a letter was mailed dismissing the appeal because the brief does not contain clear arguments with respect to the claims at issue in a clear manner addressing each claim or a group of claims with similar scope with respect to each independent claim, especially claim 38. On January 19, 2007 an interview occurred where the examiner agreed to withdraw the letter dismissing the appeal. On January 24, 2007 a notice of Non-compliant Appeal Brief was mailed out.

As petitioner's relief has already occurred the petition is **DISMISSED AS MOOT.**

The status of the application is the period for response continues to run from the January 24, 2007, notice of Non-Compliant Appeal Brief.

Any inquiry concerning this decision should be directed to the undersigned whose telephone number is (571) 272-3612.
